Bridgnorth Medical Practice provides the following NHS vaccinations: Hepatitis A/B, Diphtheria, Tetanus, Polio booster, Cholera, and Typhoid.

For other vaccinations, such as Rabies and Japanese Encephalitis, you may need to visit a travel center. Due to a shortage of Rabies vaccines, we may not always have them in stock. If Rabies vaccination is deemed necessary after your risk assessment, we will check stock availability and nurse availability to administer the doses on days 0, 7, and 21. If we cannot meet these requirements, you will be directed to a travel center.

Please book your travel vaccination appointment at least 6 weeks before your travel date to ensure we can accommodate your needs. If this is not possible, you may need to visit a travel center for additional vaccinations.

It is best practice for the nurse conducting your travel consultation to also administer your vaccinations.

TRAVEL RISK ASSESSMENT FORM – ideally to be completed by traveler prior to appointment.
